Sweet Bliss – Bakery Website

1. Introduction

Sweet Bliss is a simple and attractive bakery website developed using HTML and CSS. The main purpose of this project is to display different bakery products such as cakes, cupcakes, and fresh bread.

The website includes a header, navigation menu, welcome section, best-selling products, an about section, and a footer. It uses attractive colors, bakery images, product cards, and buttons to create a pleasant user experience.

2. Features

1. Attractive Header: Displays the Sweet Bliss name and navigation menu.
2. Navigation Menu: Provides links to Home, Our Cakes, About Us, and Cart sections.
3. Welcome Section: Displays the message “Freshly Baked with Love” and an Explore Our Cakes button.
4. Best-Selling Products: Displays four bakery products with images, names, descriptions, and prices.
5. Product Cards: Organizes bakery products in a neat and attractive layout.
6. Product Prices: Displays the prices of cakes, cupcakes, and bread.
7. Add to Cart Buttons: Displays buttons for each bakery product.
8. About Section: Provides information about Sweet Bliss Bakery.
9. Attractive Design: Uses pink colors, rounded corners, shadows, and spacing.
10. Footer: Displays the bakery name and copyright information.

3. Applications

1. Bakery Product Presentation: Can be used to display cakes, cupcakes, and bread on a website.
2. Product Information: Helps users view product names, descriptions, and prices.
3. Bakery Promotion: Can be used to promote bakery products and special items.

4. Learning Web Development: Helps students understand HTML structure and CSS styling.

5. Bakery Website Design: Serves as a basic model for developing a bakery website.

4. Technologies Used

- HTML: Used to create the structure and content of the website.

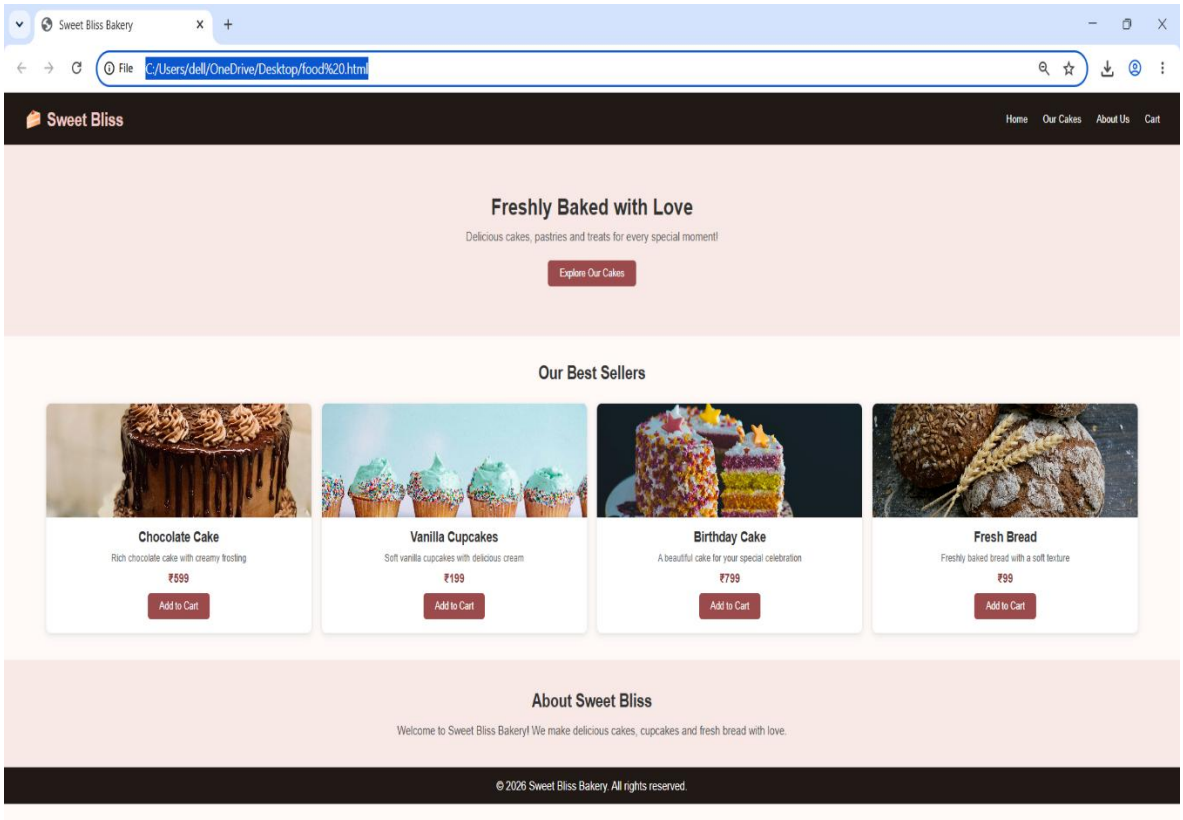

- CSS: Used to style the website with colors, layouts, spacing, shadows, and hover effects.

- HTML Images: Used to display bakery product images.

- HTML Links: Used to create navigation links between website sections.

5. Conclusion

The Sweet Bliss Bakery website is a beginner-friendly web development project that presents bakery products in an organized and attractive way. It demonstrates the practical use of HTML and CSS to develop a user-friendly website. The project can be improved further by adding online ordering, product

search, and shopping cart functionality.
